DESCRIPTION

120V or 277V LED arrays with 120° distribution for general signlighting wallwashing creates a powerful energy efficient and economical linear floodlight. Adjustable aiming. Color temperature, mounting options and finishes area all available to customize the fixture to your specific application. Perfect for signs and wallwashing applications, with unparalleled uniformity.

PHOTOMETRICS AND OPTICS

Aiming fixtures with the lens options shown enable perfect asymmetric performances to meet the needs of any signlighting or wallwashing project. Combining easy specification with easy aiming for long throw with even, shadowless distribution.

MOUNTING INSTALLATION

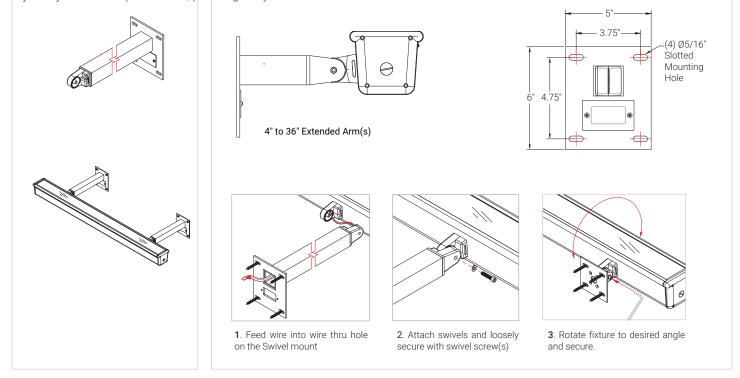

Swivel Mount

A heavy duty adjustable swivel mount with mounting plate. Wires are routed through the swivel mount, exiting close to the wall to connect to an adjacent j-box or other power outlet, providing a tidy installation. 1/2" nipple (can be specified) mounts directly to weatherproof canopies.

Extended Arm

With swivel mount, extended arm is available in 4"-36" lengths. Power cords are routed through arms, exiting close to the wall to connect to an adjacent j-box or other power outlet, providing a tidy installation.

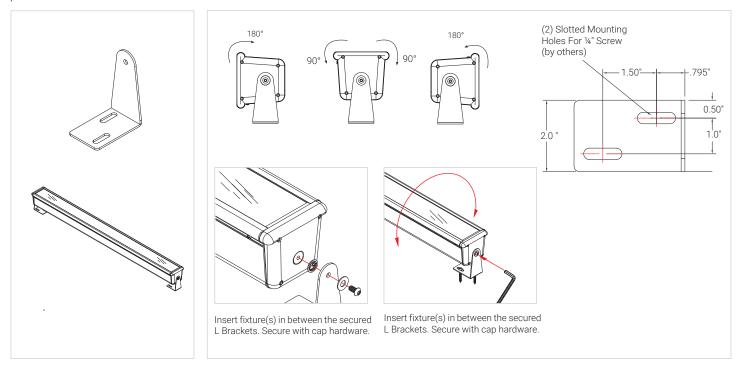

Specifications sheets are subject to change without notification.

MOUNTING INSTALLATION

L Bracket

Allows for a surface mounting with a swivel tilt. Weatherproof cord exits 3" from the back right end of individual fixtures with the lens in the up position.

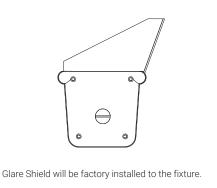

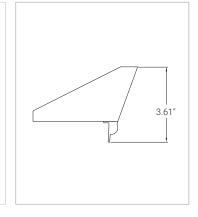

ACCESSORIES

Glare Shield

Minimizes a direct glare, while maintaining the LED output. Factory installed.

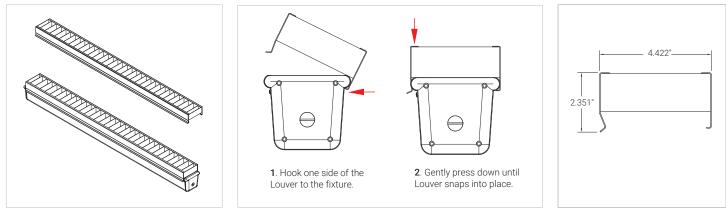

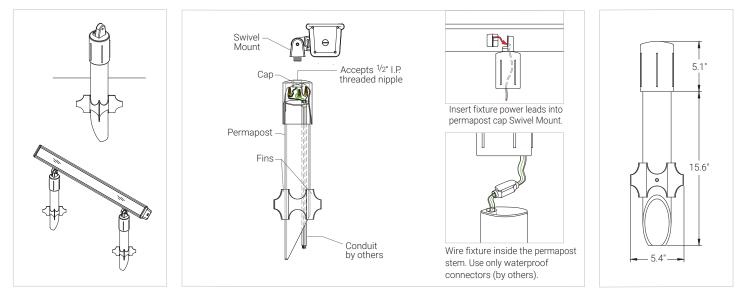

Blade Louver

Minimizes a horizontal glare, while maintaining the LED output.

Permapost

Provides easy at-grade installation. Includes swivel mount with 1/2" nipple. Fixture must be mounted at least 4" above ground level to avoid water accumulation.

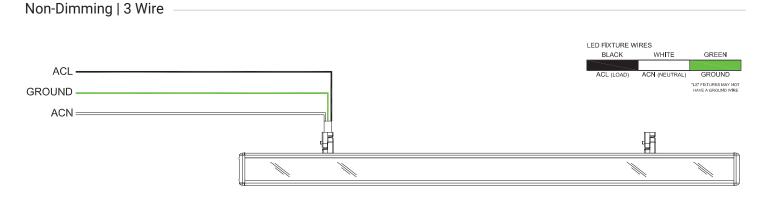

Specifications sheets are subject to change without notification.
